

## GARIBOTI

Hard worker in difficult environments

- Appealing long ears
- Good grain quality
- Strong stems

### Variety characteristics:

|                 |                 |
|-----------------|-----------------|
| Type:           | S               |
| Use:            | grain           |
| Maturity group: | ~ 440 (400-480) |
| Corn type:      | dent            |

### Agronomic properties:

|                           |                    |
|---------------------------|--------------------|
| Early vigour:             | 5                  |
| Lodging:                  | 3                  |
| Broken stem:              | 2                  |
| Fusarium corn cob:        | 5                  |
| Fusarium stems:           | 5                  |
| Helmintho:                | 6                  |
| Ustilago:                 | 2                  |
| Stay green:               | 4                  |
| Dry down:                 | 6                  |
| Plant height:             | 6                  |
| Days sowing to flowering: | 8 (late-very late) |

### Yield potential/yield structure:

|                        |              |
|------------------------|--------------|
| Rows/cob:              | 19 (18-20)   |
| Kernels/row:           | 32,5 (21-37) |
| Test weight (HL):      | 7 (high)     |
| Thousand Kernel weight | 6 (high)     |

### Crop management:

|                  |   |
|------------------|---|
| Crop protection: | terminate crop protection best in 4 leaf stage. |
| Drought stress:  | medium tolerant                                 |
| Type of soil:    | universal                                       |
